WONDER WOMEN OF HOPE FOUNDATION

SHARING LOVE · BRINGING HOPE TO THE PEOPLE

2026 OUTREACH PROPOSAL · BOARD APPROVED

Feeding families. Building livelihoods. Keeping children in school.

The 2026 outreach cycle of the Integrated Community Empowerment and Hope Initiative (ICEHI) — relief, empowerment, free medical care and education sponsorship across seven chapters and the Ile-Ife environs, Nigeria.

FUNDING REQUEST	RELIEF HOUSEHOLDS	MEDICAL + SCHOLARSHIPS	LOCATIONS
₦106,000,000	2,400	300 + 40	7 Chapters + Environs

01 Who We Are

Wonder Women of Hope Foundation (WOWOH) is a faith-inspired humanitarian and community development organization, registered in Nigeria in 2017 and anchored in the United States at Murfreesboro, Tennessee. We work with widows, less-privileged families, vulnerable children, youth, the elderly and persons living with disabilities.

Our work runs through seven chapters in South-West Nigeria — **Ile-Ife (head office), Lagos, Ilaro, Ibadan, Osogbo, Akure and Ilesha** — and each cycle we extend to villages around Ile-Ife. The same volunteers who appear in our photographs plan, pack and deliver every exercise on this plan.

MISSION

Transform families and communities through food security, healthcare, education, empowerment, youth development and social welfare.

VISION

To inspire and empower widows, vulnerable individuals and underserved populations through sustainable humanitarian interventions.

20,000+	15,000+	70+	20+
LIVES IMPACTED	FAMILIES SUPPORTED	LIVELIHOODS STARTED	SCHOOLS REACHED

Since 2017 we have moved from single-village food drives to a yearly multi-chapter outreach: relief packs at festive seasons, grinding machines and trade capital for widows, free medical days, and back-to-school support. This document is the board-approved plan and budget for the 2026 cycle.

Students with WOWOH-branded books, 2025 back-to-school outreach.

Pupils raise their new packages as they go out across all chapters.

02 The Case for This Outreach

The families on our registers tell the same story every year. Food takes the largest share of what they earn, and when prices climb, something else gives way first — the clinic visit, the school term, the small trading business a widow runs. A widow feeding three children on petty trading cannot absorb a second food-price shock in one year.

This proposal packages what our chapters already do every year into one funded plan: feed **2,400 households**, put income-generating equipment and trade capital in the hands of **36 widows and trainees**, run a free medical day for **300 patients** in Ilaro, and cover a school year for **40 students** — with the logistics, monitoring and contingency to deliver all of it properly.

The budget on the following pages is the plan exactly as approved by our board: **₦106,000,000 (approx. US$78,000)**, costed line by line per chapter.

WHAT YOUR MONEY BUYS, AT BOARD-APPROVED RATES

- **₦30,000** — a month-long food pack for one household (rice, beans, garri, noodles, beverages, vegetable oil and essentials).
- **₦250,000** — a grinding machine that gives a widow a working food business from day one.
- **₦600,000** — vocational training plus start-up capital in a trade such as fashion, catering or craft.
- **₦20,000** — one patient-day at the free medical outreach: consultation, screening and medication.
- **₦100,000** — one student-year: fees and learning materials, paid with the school.

Food support also works as economic relief. Households that receive a month of food stop spending their last naira on emergency meals and put that money back into school fees, medication and their small businesses — which is why we treat the relief pack as the foundation of every other intervention on this plan.

Cross-section of beneficiaries in our locations.

A packed hall on distribution day, Ile-Ife 2025.

03 Component A — Relief Package Distribution

₦72,000,000 · 2,400 households · ₦30,000 per pack

Each household receives a pack of rice, beans, garri, noodles, beverages, vegetable oil and household essentials. Packs are procured centrally, checked against the verified register, and distributed chapter by chapter — widow-headed and elderly-headed households first.

LOCATION	HOUSEHOLDS	COST / PACK (₦)	SUB-TOTAL (₦)
Osogbo	250	30,000	7,500,000
Ilesha	250	30,000	7,500,000
Ibadan	300	30,000	9,000,000
Akure	200	30,000	6,000,000
Lagos	350	30,000	10,500,000
Ilaro	250	30,000	7,500,000
Ile-Ife	500	30,000	15,000,000
Ile-Ife Environs	300	30,000	9,000,000
Sub-Total	**2,400**		**72,000,000**

Branded food packs stacked and ready to go out to beneficiaries.

Food and empowerment equipment distributed with start-up grants to beneficiaries.

After every distribution we run a post-distribution check — a sample of named beneficiaries is contacted to confirm the pack reached the household on the register.

04 Component B — Empowerment & Vocational Training

₦13,550,000 · 23 grinding machines + 13 vocational grants

Two tracks. A grinding machine turns a widow-run food business from hired labour into owned equipment — she keeps the margin she used to pay someone else. The vocational ("hand work") grant covers training and start-up capital in trades such as fashion, catering and craft.

B(i). Grinding Machines — ₦250,000 each

LOCATION	BENEFICIARIES	COST (₦)	SUB-TOTAL (₦)
Osogbo	2	250,000	500,000
Ilesha	2	250,000	500,000
Ibadan	2	250,000	500,000
Akure	2	250,000	500,000
Lagos	2	250,000	500,000
Ilaro	3	250,000	750,000
Ile-Ife	6	250,000	1,500,000
Ile-Ife Environs	4	250,000	1,000,000
Sub-Total	**23**		**5,750,000**

B(ii). Vocational / Hand Work — ₦600,000 each

LOCATION	BENEFICIARIES	COST (₦)	SUB-TOTAL (₦)
Osogbo	1	600,000	600,000
Ilesha	1	600,000	600,000
Ibadan	1	600,000	600,000
Akure	1	600,000	600,000
Lagos	2	600,000	1,200,000
Ilaro	2	600,000	1,200,000
Ile-Ife	3	600,000	1,800,000
Ile-Ife Environs	2	600,000	1,200,000
Sub-Total	**13**		**7,800,000**

Every machine and grant is handed over publicly, with the community and the press present, and each beneficiary signs an acknowledgment we keep on file.

05 Component C — Free Medical Care Outreach

₦6,000,000 · Ilaro Chapter · 300 patients

One full medical day in Ilaro: consultation, basic screening (blood pressure, blood sugar, malaria, vision) and medication for 300 patients at ₦20,000 per person, run with volunteer health workers and a partner pharmacy.

ITEM	QUANTITY	EST. COST (₦)	SUB-TOTAL (₦)
Medical Outreach — Ilaro Chapter	300 beneficiaries	20,000 / person	6,000,000
Sub-Total			**6,000,000**

Patients are registered on the day, seen in order of arrival, and serious referrals are documented and followed up by the chapter welfare team.

06 Component D — Education Sponsorship

₦4,000,000 · 40 students · ₦100,000 each

Forty students across the chapters — fees and learning materials at ₦100,000 each. Students are nominated with their schools, and payment goes to the term bill, not to cash.

LOCATION	STUDENTS	COST (₦)	SUB-TOTAL (₦)
Osogbo	5	100,000	500,000
Ilesha	5	100,000	500,000
Ibadan	5	100,000	500,000
Akure	5	100,000	500,000
Lagos	5	100,000	500,000
Ilaro	5	100,000	500,000
Ile-Ife	6	100,000	600,000
Ile-Ife Environs	4	100,000	400,000
Sub-Total	**40**		**4,000,000**

A grinding machine presented to a beneficiary — every handover is public, photographed and signed.

Registration and consultation at a free medical outreach, Ibadan 2025.

07 Component E — Administration & Logistics

₦10,450,000 · 9.9% of the total budget

Our volunteers carry most of the work; this line covers the costs that cannot be volunteered away — trucks, publicity, monitoring, and a buffer against price movement between approval and distribution.

ITEM	AMOUNT (₦)
Transportation & Distribution	2,500,000
Publicity & Media	800,000
Venue, Chairs, Canopy, Sound	200,000
Volunteers Welfare & Feeding	1,500,000
Monitoring and Evaluation	1,350,000
Contingency — Price Inflation Buffer	2,800,000
Contingency — Security	200,000
Contingency — Emergency Medical / Logistics	150,000
Contingency — Unforeseen Admin	200,000
Contingency — Stipends for External Media (TV, Radio, Newspaper)	750,000
Sub-Total	**10,450,000**

WHY THE BUFFER MATTERS

Food prices in Nigeria moved sharply in the last two seasons. The ₦2.8m inflation buffer sits inside Component E so that if prices rise between procurement planning and distribution day, the number of packs delivered does not fall.

A physically challenged beneficiary receiving his food package.

Volunteers at work on distribution day.

08 Budget Summary — 2026 Outreach

CATEGORY	AMOUNT (₦)	SHARE
A. Relief Packages (2,400 households)	72,000,000	67.9%
B. Empowerment / Vocational (36 beneficiaries)	13,550,000	12.8%
C. Free Medical Care (300 patients, Ilaro)	6,000,000	5.7%
D. Education Sponsorship (40 students)	4,000,000	3.8%
E. Administration & Logistics	10,450,000	9.9%
GRAND TOTAL	**106,000,000**	**100%**

In word: One Hundred and Six Million Naira Only.

HOW TO READ THIS BUDGET

Nearly 81 kobo of every naira goes directly to beneficiaries — food, machines, training capital, medication and school fees. Administration, logistics and contingency together stay under 10%. The figures above are the board-approved plan, costed per chapter, and they are the figures we will report against.

A partner may fund the whole plan, one category, one chapter row, or a single line — a machine, a student, a patient-day. Whichever size you choose, it is reported against the same table.

A beneficiary with her new grinding machine.

A less privileged beneficiary receiving a washing machine for his start-up.

09 How This Gets Funded

We are not bringing this plan to one door. The board-approved funding strategy runs on three legs: individual giving, corporate partnerships, and in-kind supply.

1. Donations & Fundraising

- **Individual donors** — church members, philanthropists and pledge drives.
- **Crowdfunding** — GoFundMe, Donorbox, and the Flutterwave donation link on wowohfoundation.org.
- **SMS / WhatsApp giving** — e.g. “Text WOWOH to 321 to donate ₦1,000.”
- **Donations in kind** — food companies (Indomie, Honeywell, Flour Mills) for relief packs; pharma (Emzor, GSK) for the medical day.

To make giving convenient, donations can be made through the following channels:

PayPal	https://www.paypal.com/donate?hosted_button_id=YTPRNNDDG6L8G
CashApp	https://cash.app/$WOWOHOPE
United Bank of Africa (Nigeria)	Account 1027506289
Chase Bank (USA)	Account 2911399699

2. Corporate Partnerships & CSR

- **Banks** (GTB, Zenith, FirstBank, Access) — health, education and empowerment lines.
- **Telcos** (MTN, Airtel, Glo) — education and health outreaches.
- **Consumer-goods companies** (Nestlé, Unilever, Dangote) — relief packages, in cash or in kind.

3. How a Partner Can Come In

- **Adopt a chapter** — fund one full row of any table in this proposal (e.g. the Osogbo relief line, ₦7.5m).
- **Fund a component** — take one category end-to-end and be named on it in our media coverage and report.
- **Give in kind** — supply food items or medication at our costed rates; we handle logistics and distribution.
- **Sponsor one person** — a widow-s machine (₦250,000), a trade start-up (₦600,000), a student-year (₦100,000) or a patient-day (₦20,000).

> **IN-KIND WORKS AT OUR RATES**
>
> If your company supplies food items or drugs directly, we cost them into the same budget lines above, so the total picture stays honest and your contribution is reported at its true value.

10 After the Outreach — Sustainability & Accountability

Sustainability: income-generating projects the board has approved for study

An outreach that depends entirely on donations dies with the donations. The board has directed the executive to develop the following internal income lines, so future cycles start partly self-funded:

- **Vocational centre** — small fees after free training; sale of products made by trainees.
- **Skill acquisition hub** — fashion, catering and ICT training with certification.
- **Event services** — renting out canopies, chairs and sound between outreaches.
- **Membership annual dues** and **"adopt a family" giving** — amounts to be set by the house.

Accountability: what happens to your money

- **Verified registers** — beneficiaries are named and confirmed with community and religious leaders before any distribution.
- **Post-distribution checks** — a sample of beneficiaries is contacted after every exercise.
- **Documentation** — receipts, photographs, press coverage and signed acknowledgments for every line spent.
- **Partner reporting** — a plain report with photographs and figures within 60 days of each exercise; records kept audit-ready.
- **Volunteer delivery** — our people give their time; that is why administration stays under 10%.

Empowerment beneficiaries with their grinding machines, 2025 cycle.

A physically challenged beneficiary receives her food package.

11 How the Year Runs

Quarter 1 — Verification & Procurement

Registers verified with community leaders; food, machines and materials procured centrally against the approved rates.

Quarter 2 — Relief Distributions & Medical Day

Household packs distributed across all eight locations; free medical outreach held in Ilaro (300 patients).

Quarter 3 — Empowerment & Back-to-School

Grinding machines and vocational grants handed over; 40 education sponsorships paid into school term bills before the new term.

Quarter 4 — Festive Relief, Monitoring & Reporting

Festive-season distributions; monitoring visits; partner report published and records closed for audit.

Where we work

CHAPTER	COVERAGE
Ile-Ife (Head Office)	Largest register, plus villages of the Ile-Ife environs
Lagos	Urban low-income households
Ibadan	Relief and health screening communities
Ilaro	Host chapter of the 2026 free medical outreach
Osogbo · Ilesha	Osun State widow and empowerment registers
Akure	Relief and education sponsorship communities
United States anchor	Murfreesboro, Tennessee — diaspora giving and in-kind channel

Every exercise is announced with the community beforehand, run with chapter volunteers, and photographed end to end.

Traditional rulers and community leaders join an outreach in Ile-Ife — every exercise is announced with the community first.
